

## ADVANTAGES

- Toolless filter change for both HEPA and prefilter
- Built-in filter scaling option
- Robust fully welded construction for durable reliability and tightness
- High corrosion protection against decontamination agents
- Integrated scanning probe for qualified in-situ testing
- Toolless push-push door operation for immediate filter access
- Interchangeable exhaust door with or without prefilter

<b>Application</b>	Turbulent airflow in clean rooms and other controlled environments with qualified filter scanning requirements, for wall installation.
<b>Installation Options</b>	Universal mounting system for wall compression mounting, optional quick clamping kit and duct adapter rectangular-to-circular.
<b>Comment</b>	<p>Construction: Steel, assembled from fully welded modules</p> <p>Finish: Decontamination resistant double-layer powder coat</p> <p>Standard color RAL 9010 (SW) or custom RAL</p> <p>Option: Stainless steel SS 304 (S4) or SS 316L (S6)</p> <p>Filters PU: MEGALAM MD(66mm)/(78mm)/MX(90mm)/MG(110mm)</p> <p>Control equipment: Room side accessible ports for downstream pressure, plus +/- secondary ports for remote pressure drop reading</p> <p>Integrated MIP manual filter scanning system</p> <p>Available in open plenum version</p> <p>For more information about compatible filters and air diffuser front plates, see the relevant product pages.</p>
